

LAKSHMI must be one of if not the best **Sunseeker Predator 60** for sale on the market. Her current owner has owned her almost since new and the continuity of maintenance is evident throughout. She has only seen private and careful use in her life resulting in low engine hours of approximately 650 per engine. She has twin VOLVO IPS 1200 engines. The IPS ensures ease of handling as well as efficiency and the powerful engines mean she can reach speeds of close to 40 knots. LAKSHMI has a spacious interior with a generous full beam master suite with large modern hull windows, a comfortable VIP cabin forward and twin cabins amidships. She is in great condition for her age, immediately available and fully EU VAT paid.

LAKSHMI has continually been updated and upgraded since being launched, the latest major additions being a new Williams 395 Jet Tender and two new Raymarine Axiom 16" display screens in 2023. She is extremely well equipped including popular and expensive options such as the hydraulic high-low platform, hydraulic gangway, opening hardtop, water maker, generator, reverse cycle air conditioning throughout and under water lights.

All equipment on board is included with the sale. Viewing of this special yacht is highly recommended and available at short notice by appointment.

## GENERAL

Price € 700.000  
Tax EU VAT paid

Location Lefkas, Greece  
Year Built 2011  
Flag German  
Builder Sunseeker, UK

LOA 19.38 metres  
Beam 5.10 metres
